

Coach Christie Hoffmeyer

Hello Everyone! My name is Christie Hoffmeyer and I am a second-year coach here at BVC. Prior to this position, I assisted at Jemison High School. I am an Alumnus of UAB, where I studied Psychology, German language, and played intramural volleyball in what little free time I had. I grew up playing volleyball and believe, without a doubt, that it is the best sport out there! When I first began my career in volleyball, I was absolutely terrible! I spent hours upon hours practicing by myself because I knew this was something I wanted to do! My volleyball coach told me years down the road, that the only reason I made the team, was because of my solid effort and determination to become the best I could be. It is because I had a coach that believed in me and saw potential, that I am the person I am today, and have the passion I have for this sport! My main goal as a coach, is to light that same fire in these girls and inspire them to go after their dreams!
